

WIEGO Social Protection Programme 5-year Strategic Plan Snapshots (April 2018 to March 2023)

Social protection is a right for all workers. Informal workers want access to health services, income security when they are older, and access to quality child care. The Social Protection Programme works to inform policy debates through its research and enhance the ability of informal worker organizations to advocate for social protection.

The Social Protection Team

Laura Alfery, Director
Rachel Moussié, Deputy Director
Francie Lund, Advisor and Emeritus Team Member
Cyrus Afshar, Programme Officer

Examples of what we will do:

INFORMING GLOBAL DEBATES FROM AN INFORMAL WORKER PERSPECTIVE

- Develop a series of Social Protection Briefing Notes detailing WIEGO's position on key themes, including financing social protection, the place of social services in social protection, and urban policy-social protection linkages
- Continue to engage in global and regional policy spaces such as the Global Coalition for the Social Protection Floor, and the Rights Based Social Protection in Africa project
- Produce regular, targeted "think pieces" on key social protection issues for placement in popular media, academic journals and WIEGO's blog
- Document informal worker perspectives and action in relation to current social protection reforms across the globe

SOCIAL PROTECTION AS A TOOL FOR MOVEMENT BUILDING

- Develop worker-targeted resources for MBOs, Nets and Focal Cities on Social Protection, including an updated Tools for Advocacy for Social Protection and a toolkit on Workers Health (health screening resources, overview of debates in health policy, and hazard mapping tools).
- Work with the Nets and with ORP to ensure that informal worker organizations are able to use social protection as a tool for organizing and movement building.

WORKERS HEALTH

- Develop and support MBO health advocacy strategies in South and Southeast Asia on Universal Health Care
- Publish a WIEGO policy position on Universal Health Care for Informal Workers
- Document & disseminate the work of WIEGO's Health Innovations partners, as well as outcomes of OHS Project (2009-2014).
- Continue to engage with the WHO global project on the Health of Vulnerable Workers
- Research alternative financing models to improve OHS for informal workers

CHILD CARE ACCESS

- Support research and advocacy and provide tools so that MBOs have the capacity to negotiate with the state for access to child care
- Assess the direct/indirect costs borne by informal workers when child care provision is inadequate
- Help women informal workers engage in international policy spaces (i.e. ILC, ASEAN People's Forum, UN HLP) around child care
- Promote WIEGO's child care campaign publicly, expand MBO involvement, and build alliances between informal workers, formal workers, women's rights groups and child rights groups in the interest of promoting better child care for all workers

INCOME SECURITY FOR OLDER INFORMAL WORKERS

- Build a comprehensive body of knowledge on income security for older workers through policy scoping on universal pensions, commissioned research, and reviews of national survey data and WIEGO's previous work.
- Develop a full plan of work on income security for older workers.

Examples of what we will do:

INFORMING GLOBAL DEBATES FROM AN INFORMAL WORKER PERSPECTIVE

- *Develop a series of Social Protection Briefing Notes detailing WIEGO's position on key themes, including financing social protection, the place of social services in social protection, and urban policy-social protection linkages*
- *Continue to engage in global and regional policy spaces such as the Global Coalition for the Social Protection Floor, and the Rights Based Social Protection in Africa project*
- *Produce regular, targeted "think pieces" on key social protection issues for placement in popular media, academic journals and WIEGO's blog*
- *Document informal worker perspectives and action in relation to current social protection reforms across the globe*

SOCIAL PROTECTION AS A TOOL FOR MOVEMENT BUILDING

- *Develop worker-targeted resources for MBOs, Nets and Focal Cities on Social Protection, including an updated Tools for Advocacy for Social Protection and a toolkit on Workers Health (health screening resources, overview of debates in health policy, and hazard mapping tools).*
- *Work with the Nets and with ORP to ensure that informal worker organizations are able to use social protection as a tool for organizing and movement building.*

WORKERS HEALTH

- *Develop and support MBO health advocacy strategies in South and Southeast Asia on Universal Health Care*
- *Publish a WIEGO policy position on Universal Health Care for Informal Workers*
- *Document & disseminate the work of WIEGO's Health Innovations partners, as well as outcomes of OHS Project (2009-2014).*
- *Continue to engage with the WHO global project on the Health of Vulnerable Workers*
- *Research alternative financing models to improve OHS for informal workers*

CHILD CARE ACCESS

- *Support research and advocacy and provide tools so that MBOs have the capacity to negotiate with the state for access to child care*
- *Assess the direct/indirect costs borne by informal workers when child care provision is inadequate*
- *Help women informal workers engage in international policy spaces (i.e. ILC, ASEAN People's Forum, UN HLP) around child care*
- *Promote WIEGO's child care campaign publicly, expand MBO involvement, and build alliances between informal workers, formal workers, women's rights groups and child rights groups in the interest of promoting better child care for all workers*

INCOME SECURITY FOR OLDER INFORMAL WORKERS

- *Build a comprehensive body of knowledge on income security for older workers through policy scoping on universal pensions, commissioned research, and reviews of national survey data and WIEGO's previous work.*
 - *Develop a full plan of work on income security for older workers.*
-
